

## The Pure Option

Ultra Violet water purification technology is designed to use the same process as nature to provide **Safe, Clean, Fresh, and Pure** drinking water.

The sun's UV rays have germicidal effect on disease causing pathogens in water. When contaminants come into contact with UV light, the water is disinfected as the UV rays kills all active bacteria and viruses.

WPS 2000 Inc. water purifier products use the same technique. By exposing contaminated water to high-intensity UV light, disease-causing micro-organisms are rendered harmless.

# Pure Water Made for You!

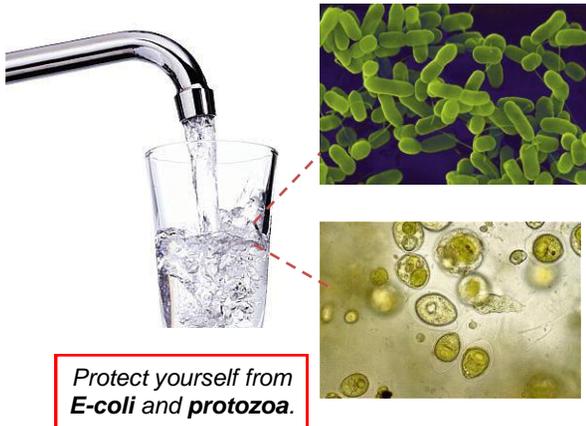

Phone: 519.451.9882

## The Pure Option

## for Safe Water

## Home - Business - Farm

Protect yourself from **E-coli** and **protozoa**.

### Water Contaminants

Water contains bacteria, viruses, and other contaminants that can cause bodily harm to you and your family. Government treatment facilities to disinfect water cannot provide any guarantee that your water is safe to drink!

### UV Water Purification

Our **UV Water Purification** systems have a seamless design and are made with high-quality materials. This design will utilize a safe and effective ultraviolet technology to eliminate bacterial, viral and spore contaminants in drinking water to **99.9% or better**.

*Clean water is essential to life.  
Our health and well-being  
depend on it!*

### WPS 1

WPS 1 is designed for point-of-use installation under the sink. It is ideally suited to treat drinking water at homes, cottages, aboard ships and in RVs. This 1 GPM water filtration and disinfection system comes complete with sediment and carbon filter, saddle valve, faucet and all accessories. The unit has both visual and audio lamp failure alarms. Each unit is pre-tested to ensure quality.

### WPS 8

WPS 8 is designed for point-of-entry installation for homes, cottages, restaurants and small businesses. This 8 GPM water purification system is combined with a quality filtration system to provide complete water treatment for the entire household. The three-valve system allows for simpler installation and repairs. The system includes both visual and audio lamp failure alarms as well as an annual lamp change timer. WPS 8 is a great Investment with long-term benefits.

*Great investment with long-term benefits! Will increase the value of your home!*

### Reliability

All units have been manufactured and pre-tested in shop to ensure high quality.

### Warranty

- Five-Year Limited Warranty for UV-Clean Chambers
- Three-Year Limited Warranty for Electronic Ballasts
- UV Lamp warrant for 9000 hours

### Installation & Maintenance

- Uses standard 120V outlet.
- Easy installation with standard plumbing requirement can be completed on average 30 minutes.
- UV lamps and filters are easily accessible for cleaning and/or replacement.
